

AquaRiva®

Tequila

CLEO'S Tequila FACTS

1. Remember you are fabulous, so always drink and request 100% agave tequila. This does not mean 100% alcohol but that the tequila is made purely from Blue Weber agave and not mixed with sugar based alcohols & chemicals.
2. Tequila is made from the agave plant which is part of the lily family even though it looks like a cactus
3. In your tequila cocktails always request organic agave syrup instead of sugar water or sugary liqueurs like Triple sec.
4. Oh yes and also remember NEVER drink anything with a dead animal in the bottle no matter what the friendly local tells you.
5. You do not drink a good tequila shot with salt and lime. Leave that to the Gringos. Sip don't shoot...
6. In Mexico more women than men drink tequila so don't be afraid of 100% tequila
7. Never drink with dreary people.

Cleo's perfect Margarita Recipe

35mls of AquaRiva Blanco
or Reposado Tequila

25mls or juice of one
fresh squeezed lime

15 mls of AquaRiva Organic
Agave Syrup

Lots of ice, shake well and pour into a
glass, best served on the rocks

Rim the glass with an orange zest,
completes the perfect cocktail

(Salt if you like)

Cleo's Guavarita

As above...plus
15mls of Guava juice
(Rubicon)

Shake well and enjoy
life at the beach...
